

1 Complète les dessins en entourant, comme dans l'exemple.

2 Relie les étiquettes dont le résultat est identique.

6×4

$5 + 5 + 5 + 5$

20

$4 + 4 + 4 + 4 + 4 + 4$

24

9

$3 + 3 + 3$

3×3

3 Relie les étiquettes dont le résultat est identique.

18

$9 + 9$

3×4

12

$4 + 4 + 4$

2×9

4 Complète comme dans l'exemple.

Ex.: $4 \times 2 = 2 + 2 + 2 + 2 = 8$

$2 \times 3 = 3 + \dots = \dots$

$\dots \times 5 = 5 + 5 + 5 = \dots$

$3 \times 10 = 10 + \dots + \dots = \dots$

$\dots \times \dots = 7 + 7 = \dots$

$4 \times 2 = \dots + \dots + \dots + \dots = \dots$

$\dots \times \dots = 3 + 3 + 3 + 3 = \dots$

1 Écris l'addition, puis la multiplication qui convient pour chacune des situations.

$$6 + \dots + \dots = \dots$$

$$\dots \times \dots = \dots$$

$$\dots + \dots + \dots + \dots = \dots$$

$$\dots \times \dots = \dots$$

2 Entoure les objets par groupes égaux, puis écris la multiplication correspondante.

$$\dots \times 3 = \dots$$

$$\dots \times 2 = \dots$$

$$\dots \times 5 = \dots$$

$$\dots \times 4 = \dots$$

3 Complète comme dans l'exemple.

Ex.: $4 \times 2 = 2 + 2 + 2 + 2 = 8$

$$2 \times 6 = \dots = \dots$$

$$\dots \times \dots = 10 + 10 + 10 + 10 + 10 = \dots$$

$$3 \times 5 = \dots = \dots$$

$$\dots \times \dots = 9 + 9 = \dots$$

$$4 \times 4 = \dots = \dots$$

$$\dots \times \dots = 5 + 5 + 5 + 5 = \dots$$
